

THE NEW AWARD WINNING*

primo®

PIPETTING TECHNOLOGY JUST GOT BETTER WITH THE **primo®**
INNOVATIVE PIPETTE CONTROLLER

The no nonsense pipette controller.

Innovative, robust, ergonomic design and comfortable in the hand. **primo®** effectively controls the input and output of liquids in glass or plastic pipettes.

No need to worry about recharging every day.

Using a standard PP3 battery or a rechargeable the **primo®** is capable of a minimum of 10,000 cycles or a minimum 14 days non stop operation.

No speed control switches

The user has full control of the speed of the liquids both in and out of the **primo®** using the ergonomic control buttons.
